

Turn Your Domino Applications to **SMS Enabled**

Low Cost and Effective Solution for Business

Introducing: **MobileNotifier**

If Email Notification is not enough to turn your users' attention, how about notify them using SMS directly from Domino Application?

Update your existing Domino Application into SMS-Enabled. Triggered when document saved or submitted or anytime you want.

- * No additional hardware needed
- * No additional software license
- * No mobile phone needed
- * Works with Domino 6/7 and Domino 8
- * Approve document using SMS (optional)

Applications You Can Deploy

- * Company Announcement
- * Meeting Invitation
- * Seasons Greetings
- * Workflow Applications
- * and many more!
